Ben's Food & Gas to Close Down

The local gas station and diner **Ben's Food & Gas** is slated to close down February 3rd, following an investigation into health and safety violations. After multiple patrons complained that there was something wrong with the fuel, inspectors discovered that *reptiles* had managed to get into the supplies of unleaded and diesel fuels. Premium fuel was not affected.

We contacted the owner and manager of **Ben's Food & Gas, Charles Benjamin**, and asked him for his thoughts. “Now, I don't know where them lizards came from. Not at all. We tried to stop 'em before, but they done showed up again. I said I ain't gonna bother fixin' it again, so now my shop's getting shut down.” He provided no further comment.
